

**AMENDMENTS TO THE SPECIFICATION**

**Please replace the paragraph no. 22 with the following amended paragraph:**

According to another aspect of the present invention, the color separator includes first, second, and third dichroic filters that are installed in parallel between the optical source and the scrolling unit and which each transmit a beam of one color from an incident beam and reflect beams of other colors. The projection system further includes a prism installed in front of the first, second, and third dichroic ~~prisms~~filters.
